

July 2010

Summer has been super busy for Summit, but the students and teachers are loving it! We are having a great time and working hard!

Inside Activities

Summer in Georgia is hot and sometimes playing outside is the last thing on your mind! Here are some ideas for inside fun with your child:

- obstacle course
- window painting (with special paint or shaving cream)
- make your own playdough-
http://www.creativekidsathome.com/activities/activity_8.html
- race remote control cars
- build a fort
- finger paint with pudding

Student of the Month

Sean Reeves is our July Student of the Month. Sean is one of our summer kids and he has already made so much progress in Math and conversational language. He loves the cars and getting hugs from all the teachers!

Car Pool

Thank you to all the parents for helping us run car pool efficiently and effectively. We know we have switched things around a bit, but we are optimizing student instruction time and minimizing parent waiting time!

Teacher of the Month

Miss Tajarae is our July Teacher of the Month. Tajarae takes a special interest in all of the students. Her high expectations of the children make it fun for them to do their best. Her energy level makes her a much loved teacher at Summit and we appreciate her hard work!

Important Dates

July 5: No school

July Birthdays

7/21: Wilson Barron
